

ABCs of Federal Early Learning and Care Funding Streams

Every year, millions of children from low-income families who range in age from birth through age five benefit from the array of federal early learning and care programs. While programs may occur in different settings and have different requirements, together they form an effective mixed-delivery system that supports the care, education, and healthy development of children living in poverty, prioritizing parental choice and children's individual needs.

Federally Funded Early Learning Support by Ages Served

Head Start & Early Head Start

WHAT IT DOES Funds public and private organizations and tribal entities to deliver comprehensive early learning, health, nutrition, and family support services to children birth through age five and pregnant women who are living in poverty

WHO IT SERVES Children from families with income below federal poverty guidelines (under \$27,750 for a family of 4); who are receiving TANF, SNAP, or supplemental security income (SSI); or who are experiencing homelessness; children in foster care; Early Head Start serves pregnant women and children birth through three, while Head Start serves children ages three through five

FY 2022 Funding
\$11,036,820,000
 (\$289 million above FY 2021)

HEAD START
