

The Positive Impact of

Maternal, Infant, and Early Childhood Home Visiting (MIECHV) in Utah

MIECHV provides federal funds to states, territories, and tribal entities for voluntary, evidence-based home visiting services. Home visitors meet with parents one on one from pregnancy through their child's kindergarten entry to help lay the foundation for the health, education, development, and economic self-sufficiency of the entire family. Visits by caring, experienced professionals who provide families support and connections to needed resources and services can help families leverage their strengths so they can thrive.

Since 2013, MIECHV has been level-funded at \$400 million annually and pre-pandemic estimates showed MIECHV reached only 3-5% of eligible families nationwide. As MIECHV is set to expire on September 30, 2022, reauthorization offers Congress the opportunity to provide additional investments that will enable home visiting programs to reach

more families. The National Home Visiting Coalition, of which FFYF is a member, recommends a five-year reauthorization that would increase funding by \$200 million annually (reaching \$1.4 billion in FY2027); doubling the MIECHV tribal set-aside from 3% to 6% to reach more families in American Indian and Alaska Native communities; and continuing to allow virtual home visiting implemented with model fidelity as a service delivery option for families who choose it.

In FY21:

\$3,162,182

was awarded to the Utah Department of Health¹

Within Utah, MIECHV provided/
served:*

474 families

6,231 home visits

482 children

Utah MIECHV Program At-a-Glance

- Rural:** Carbon, Emery, Grand, Wasatch
- Urban:** Salt Lake, Utah, Weber

Evidence-based models providing MIECHV-supported home visiting services in Utah include:[^]

Parents as Teachers®

Utah Performance Highlights:[^]

- ◆ **93.9%** of caregivers enrolled in home visiting had continuous health insurance coverage for at least 6 consecutive months
- ◆ **88.7%** of children enrolled in home visiting had a family member who read, told stories, and/or sang with them on a daily basis
- ◆ **86.2%** of caregivers enrolled in home visiting were screened for intimate partner violence within 6 months of enrollment

Family Needs[^]

States tailor their programs to meet community needs, with priority given to certain populations listed in the law.

In Utah:

- ◆ **65.8%** of households were low income
- ◆ **17.7%** of households included a child with developmental delays or disabilities
