Early Childhood Education Economic Impact

In addition to the benefits to young children, access to affordable, high-quality child care can increase parental labor force participation and family economic stability. Child care problems, however, adversely affect both state and national economies. As a direct result of child care issues, the national economy loses upward of \$57 billion annually in the form of lost earnings, productivity, and revenue.¹⁴

In New Hampshire

11.0% of parents make career sacrifices due to child care issues.¹⁵

Labor force participation of mothers with children under the age of 5 decreased from 75.8% in 2019 to 70.8% in 2021.¹⁶

Nationwide¹⁷

The percent of families that reported difficulty finding space in a home- or center-based program increased dramatically from 22% in December 2021 to 58% in January 2022.

71% of parents report that difficulty finding child care has impacted their ability to work.
