## Early Childhood Education Economic Impact

In addition to the benefits to young children, access to affordable, high-quality child care can increase parental labor force participation and family economic stability. Child care problems, however, adversely affect both state and national economies. As a direct result of child care issues, the national economy loses upward of \$57 billion annually in the form of lost earnings, productivity, and revenue.<sup>15</sup>

### In New Jersey

**11.5%** of parents make career sacrifices due to child care issues.<sup>16</sup>

Labor force participation of mothers with children under the age of 5 decreased from 68.0% in 2019 to 62.6% in 2021.<sup>17</sup>

### Nationwide<sup>18</sup>

The percent of families that reported difficulty finding space in a home- or center-based program increased dramatically from 22% in December 2021 to 58% in January 2022.

71% of parents report that difficulty finding child care has impacted their ability to work.
