# Early Childhood Education Economic Impact

In addition to the benefits to young children, access to affordable, high-quality child care can increase parental labor force participation and family economic stability. Child care problems, however, adversely affect both state and national economies. As a direct result of child care issues, the national economy loses upward of \$57 billion annually in the form of lost earnings, productivity, and revenue.<sup>14</sup>

#### **In Texas**

8.8% of parents make career sacrifices due to child care issues.15

Labor force participation of mothers with children under the age of 5 increased from 58.5% in 2019 to 63.9% in 2021.<sup>16</sup>

#### Nationwide<sup>17</sup>

The percent of families that reported difficulty finding space in a home- or center-based program increased dramatically from 22% in December 2021 to 58% in January 2022.

71% of parents report that difficulty finding child care has impacted their ability to work.

### Texas Early Learning and Care Snapshot

- Population Under Six: 2.385.33329
- Under Six Living in Poverty: 21.44%<sup>30</sup>
- 59.22% of children under six have all available parents in the workforce<sup>31</sup>

- 48% of Texas residents live in a "child care desert"<sup>32</sup>
- For rural families and families with low incomes, this percentage is even higher<sup>33</sup>

- The average price of child care is \$9,401 per year<sup>34</sup>
- The median household income is \$92,562<sup>35</sup>

 Met 4/10 of NIEER's State Preschool Quality Standards<sup>36</sup>

### High Price of Care<sup>37</sup>

Too often, the care that is available costs more than families can afford.
