Child Care & Development Block Grant in North Carolina

The Child Care & Development Block Grant (CCDBG) is the primary federal grant program that allows states to provide child care assistance to low-income working families with children under age 13. The majority of these funds serve children 6 years or younger, with the remainder supporting care for older children during out-of-school time.

Subsidies help remove barriers to affordable, high-quality child care, whether in center- or home-based settings. They give working parents the ability to access quality care and choose the type of care that works best for them. The majority of funds go directly to providing early learning experiences, but states can also use the funding to:
- Recruit and retain a well-qualified, fairly compensated, and effective workforce
- Support continuous quality improvement
- Meet the child care needs of families working nontraditional hours

How CCDBG Funds Flow
Using an established federal formula, states, territories, and tribal entities receive grant awards from the Department of Health and Human Services, Administration for Children and Families (ACF).

Parents
Families can use vouchers to help cover the cost of care if a provider/program agrees to accept them.

Providers
Grants and contracts represent agreements between the subsidy program and child care providers to designate slots for subsidy-eligible children.

CCDBG by the Numbers in North Carolina

- **726,199** Children Under 6
- **63%** Population Under 6 with All Parents in the Workforce
- **26,325** Children Ages 0-6 Served by CCDBG and Mandatory Funds
- **4,370** Providers Accepting CCDBG Subsidies
- **65%** Children Currently Served by CCDBG Who Are Under the Age of 6
- **$310,261,463** CCDBG and Mandatory Funds
- **$18,577,697** CCDBG State Match
- **$1,762,593,617** CCDBG COVID-Relief Allocations: CARES | CRRSA | ARPA (CCDF + Stabilization)
- **$21,773,001** TANF Transferred to CCDBG

Income Eligibility
Given CCDBG is a federal block grant, state Lead Agencies have the flexibility to design their own subsidy programs in compliance with established eligibility and quality requirements and may choose to set their own additional requirements.

The Lead Agency in North Carolina is the North Carolina Division of Child Development and Early Education.

Families that meet income eligibility and work/job training/education requirements can apply to the Lead Agency for a subsidy. Many families are required to pay a copay, but states may waive those requirements. Families who receive a subsidy may choose any participating child care provider, including center-based care (including faith-based programs), home-based care, and in-home care.

In North Carolina, eligibility is capped at 69% of State Median Income (SMI). This means that a family of 3 is eligible for a subsidy if they make: $3,403 or less per month ($40,836 per year).
Provider Reimbursements

ACF recommends that Lead Agencies set provider reimbursement rates at the 75th percentile of the market rate. This is the price the lowest 75% of child care programs included in the market rate survey reported charging.

However, market rates often do not reflect the actual costs of providing high-quality care as programs must charge what families can afford in order to fill slots. Therefore, there is a significant gap between how much providers are reimbursed and how much it costs to provide care. Find answers to the most frequently asked questions about provider reimbursement rates here.

North Carolina reimburses at the federally recommended reimbursement rate. Higher payment rates are critical in supporting providers to stay financially afloat and provide high-quality learning experiences. They also help low- and middle-income working families afford quality child care.

CCDBG in COVID-19 Relief

Throughout the pandemic, there was strong bipartisan support for federal relief funding to keep the child care sector afloat. CCDBG was the primary mechanism for providing this relief to child care providers and ensuring access to child care for thousands of working families through CARES, CRRSA, and ARPA. As of December 31, 2022:

- 4,380 child care programs in North Carolina received American Rescue Plan Stabilization support, impacting up to 383,100 children.

Providers in 99% of North Carolina counties have received funds, including:

- **3,180** child care centers
- **1,205** family child care homes

*Most common use of funds: Personnel costs and keeping programs staffed.*

*Most common use of funds: Rent and mortgage payments, typically their largest operating expense.*

American Rescue Plan Act Spending Spotlight

Funds have been used to support and stabilize the workforce through increases in staff compensation. Approved programs can receive additional funding for a Compensation Support Grant, where they can elect to either provide bonuses for all staff or increase base pay and/or benefits along a compensation scale.

Federal pandemic relief funding, which buttressed an already struggling child care market, expires in September 2024. As this temporary funding expires, Congress must come together to strengthen and invest in our federal early learning and care programs so families can access the reliable, high-quality, affordable child care they depend on.

Families that don’t receive subsidies pay significantly higher costs.

For instance, center-based infant care ranges in price from:

- $483 in Allegany County per month
- $1,537 in Orange County per month
