In Montana, federal and state early learning opportunities serve more than 7,742 children and families, or 11% of children birth through age 5. High-quality early care and education (ECE) is proven to dramatically improve a child’s opportunities for a better future while offering parents greater job stability and overall economic security.

### The Economic Impact

Access to affordable, high-quality child care can increase parental labor force participation and family economic stability. However, widespread problems finding and paying for child care adversely affect both state and national economies. As a direct result of child care issues, the national economy loses $122 billion annually in the form of lost earnings, productivity, and revenue. In Montana: The estimated annual economic impact of the infant-toddler child care crisis: $317M.

There are several early learning programs that provide working families with access to high-quality, affordable ECE opportunities, but currently the demand for care far outweighs the supply, and funding constraints leave many eligible children unserved. Each of these programs has its own eligibility requirements, purpose, and service delivery model. Together they form a mixed-delivery system that supports parental choice and aims to meet children’s individual needs.

### Child Care & Development Block Grant (CCDBG)

- **1,200** Children Birth Through Age Five Served
- **11%** Eligible Children Birth Through Age Five Served

Learn more about CCDBG in Montana [here](#).

### Early Head Start

- **1,117** Children Enrolled
- **14%** Eligible Children Served

Early Care and Education (ECE) in Montana Snapshot

**Accessibility**

Many families struggle to find the care they need.
- **60%** of Montana residents live in a “child care desert.”
- **Rural families and families with low incomes** are disproportionately represented among those who live in a “child care desert.”
- **2%** of children under age 3 receive early intervention services.

**Affordability**

The cost of ECE is too expensive for many families.
- The annual price of center-based infant care is **$11,700**, and home-based infant care is **$9,100**.
- Families receiving a CCDBG subsidy pay between **$10** and **$364** per month for one child in care.
- A two-parent household spends **10%** of their income on child care, while HHS defines spending over 7% to be a burden.

**ECE Workforce**

Early childhood educators have some of the lowest paying jobs in the United States, earning poverty-level wages.
- **$26,480** child care worker annual salary ($12.73 per hour).

**Program Quality**

Program quality varies substantially across and within states.
- **35%** of children received developmental screenings at 9, 18, and 30 months in the past year.

Spotlight: ECE Successes in Montana

**COVID-19 Relief:**

Throughout the pandemic, there was strong bipartisan support for federal relief funding to keep the child care sector afloat.
- As a result, **1,040** child care programs in Montana received support, impacting up to **26,400** children.
- These funds also allowed states to demonstrate what would be possible when equipped with additional resources. Funds have been used to support and stabilize the workforce through wage bonuses. Nearly 3,000 eligible providers received an initial payment of $600 starting in May 2022. Those remaining in the child care field were eligible for a second payment of $1,000 in February 2023. New child care professionals were eligible to submit for one payment of $600 in February 2023.

**Preschool Development Grant Birth Through Five (PDG B-5):**

PDG B-5 is a competitive federal grant designed to improve states’ early childhood systems. In their 2023 renewal grant application, among other uses, Montana noted that they would use funding to:
- **Build on its existing 14 Early Head Start - Child Care Partnership sites**, offering stipends to programs currently participating in the partnership.
- **Conduct a child care licensing assessment**, enhancing existing processes, regulations, data systems, and organizational culture to reduce the administrative burden on providers.
