

In West Virginia, federal and state early learning opportunities serve more than 39,367 children and families,¹ or 36% of children ages 5 and under.²

High quality child care and early learning programs support child development and offer parents peace of mind while they work or attend school.

Unfortunately, the demand for quality care far outweighs the supply, so many families struggle to access and afford the care options they want or need. While there are several federally funded programs that provide working families with access to quality child care opportunities, limited funding leaves many eligible children unserved. The impacts of these challenges extend beyond families and carry over to the workplace. As a direct result, the national economy loses **\$122 billion annually** in the form of lost earnings, productivity, and revenue.³

Below is a list of existing child care and early learning programs which together form a mix delivery system that supports parental choice and aims to meet children's individual needs. These programs have unique eligibility requirements and service delivery models. However, at current funding levels, each only reaches a fraction of eligible families.

ELEMENTS OF PROGRAM QUALITY

Program quality varies substantially within and across states.

Quality child care and early learning programs rely on a strong workforce, but low pay makes it difficult to recruit and retain educators. **In West Virginia, child care workers earn \$10.61 per hour (\$22,060 annually).**⁴²

Teacher-child ratios are crucial for ensuring safety, quality, and individual attention. Licensed center-based care providers participating in CCDBG are required to have the following ratios:⁴³

- **Infant 1:4**
- **Toddler 1:4**
- **Preschool 1:12**

The state's pre-K program met **9/10 of NIEER's Quality Standards Benchmarks**, which represent minimum standards to support quality preschool programs.⁴⁴

Preschool Development Grant Birth Through Five (PDG B-5) is a competitive federal grant designed to improve states' early childhood systems. **West Virginia's PDG B-5 plans include:**⁴⁵

- Conduct a needs assessment on program capacity, enrollment, and waiting lists, with special attention to programs serving families affected by the opioid epidemic, homelessness, foster/kinship care, and poverty.
- Develop a 5-year strategic plan to address the workforce, program access (with a focus on infants/toddlers with disabilities), equity and transitions across the B-5 system.

CHILD AND DEPENDENT CARE TAX CREDIT (CDCTC)

The Child and Dependent Care Tax Credit (CDCTC) directly helps working parents offset the cost of child care.

In its current form, the credit only reaches a small percentage of families and has been swiftly outpaced by the escalating cost of child care as it lacks any adjustment for inflation.

Last permanently updated in 2001, the current credit averages \$500-\$600 a year.⁴⁶

NOTE: Major provisions of the Tax Cuts and Jobs Act of 2017 (TCJA) expire at the end of 2025⁴⁹, giving Congress the opportunity to modernize the CDCTC and other tax provisions to better help working families offset the cost of quality child care.⁵⁰
