

In Pennsylvania, federal and state early learning opportunities serve more than **197,752 children** and families,¹ or **24% of children** ages 5 and under.²

High quality child care and early learning programs support child development and offer parents peace of mind while they work or attend school.

In the U.S., the demand for quality care far outweighs the supply: **28% of working families** with young children cannot reasonably access the formal care they want or need.³ While there are several federally funded programs that help working families access quality child care opportunities, limited funding leaves many eligible children unserved. The impacts of these challenges extend beyond families and carry over to the workplace. The 10-year economic impact of the child care shortage could be as high as \$329 billion due the effects on households, businesses, and tax revenues.⁴

PROGRAM REACH

Below is a list of existing child care and early learning programs which together form a mixed delivery system that supports parental choice and aims to meet children’s individual needs. These programs have unique eligibility requirements and service delivery models. However, at current funding levels, each only reaches a fraction of eligible families.

- N/A** PDG B-5 State Match⁴⁰

FEDERAL INVESTMENT

- \$398.7M** CCDBG and Mandatory Funds²⁹
- \$278.6M** Head Start Preschool³⁰
(includes AIAN when applicable)
- \$107.7M** Early Head Start³¹
(includes AIAN when applicable)
- \$0** PDG B-5³²
- \$16.4M** MIECHV³³
- \$17.9M** IDEA Part C³⁴
- \$15.3M** IDEA Part B, Sec. 619³⁵
- \$542.9M** TANF Early Care and Education³⁶
- \$43.2M** TANF Transferred to CCDBG³⁷

CCDBG

CCDBG allows states to provide child care assistance to low-income working families with children under age 13, helping parents access child care in a setting of their choice.

In Pennsylvania:

- **8,791 child care providers** accept CCDBG subsidies.⁴¹
- Eligibility is capped at **55% of State Median Income**.⁴²
- A family of three is eligible if they make **\$4,303/month** or less (**\$51,636/year**).⁴³
- With a subsidy, a family of three pays a maximum monthly co-payment of **\$281/month**, compared to **\$1,243/month** without.⁴⁴

State Lead Agencies must establish child care licensing requirements that ensure children are cared for in safe, quality environments. Different rules may apply depending on the setting (e.g., center or home-based) and some providers may be exempt from licensing requirements (e.g., faith-based programs).

Appropriate teacher-child ratios are crucial to ensure safety, quality, and individual attention. Licensed center-based care providers in Pennsylvania must meet the following ratios:⁴⁵

INFANT	1:4
TODDLER	1:5 for age 1-2 1:6 for age 2-3
PRESCHOOL	1:10

HEAD START

Head Start Preschool and Early Head Start (collectively referred to as “Head Start”) provide a continuum of high-quality early learning and comprehensive services that support health and development, and strengthen family well-being. Federal funds go directly to local grantees, with programs in every congressional district (explore Head Start’s reach in these [maps](#)).⁴⁶

In Pennsylvania, there are **70 Head Start grants**, which fund **780 program sites** and serve **35,122 children**.^{47, 48, 49}

Children are eligible if their family income is below the federal poverty line, they are receiving TANF, SNAP, or SSI, or if they are in foster care or experiencing homelessness. Additionally, programs are expected to reserve at least 10% of slots for children eligible for services under the Individuals with Disabilities Education Act (IDEA).

PDG B-5

Preschool Development Grants Birth through Five (PDG B-5) is a competitive federal grant designed to improve states’ early childhood systems. To date, Pennsylvania has been awarded **\$58.6M** in PDG B-5 funds.⁵⁰ Pennsylvania’s PDG B-5 plans have included:⁵¹

- Expand the Infant Early Childhood Mental Health Consultation (IECMHC) program and hire additional mental health consultants.
- Develop strategies for culturally and linguistically responsive professional development and higher education opportunities.

Learn more with the PDG B-5 grantee map [here](#).⁵²

CDCTC

The Child and Dependent Care Tax Credit (CDCTC) directly helps working parents offset the cost of child care. In 2025, the CDCTC was permanently updated for the first time since 2001. Many filers could see their credit increase by as much as \$450 (for one child) or \$900 (for two+ children).⁵³ In Pennsylvania, **215,550 taxpayers** claimed the CDCTC in 2022.⁵⁴
