

Child Care & Early Learning in New Hampshire

In New Hampshire, federal and state early learning opportunities serve more than **8,492** children,¹ or **11%** of children ages 5 and under.²

High-quality child care and early learning programs support children's healthy development while giving parents peace of mind as they work or attend school.

While several federally funded programs help working families access quality child care, limited funding leaves many eligible children unserved. These challenges not only affect families but also employers and the broader economy. Each year, child care shortages across the country impose significant economic costs on families, businesses, and state tax revenues.

New Hampshire's early learning landscape operates through a mixed-delivery system of diverse programs, each with distinct eligibility requirements, funding structures, and service delivery models designed to maximize parental choice.

- \$0** TANF Transferred to CCDBG³⁷

CCDBG

CCDBG allows states to provide child care assistance to low-income working families with children under age 13, helping parents access child care in a setting of their choice.

- Income eligibility: **85% of state median income** (**\$95,280 per year** for a family of 3)^{38,39}
- Monthly cost of center-based infant care
 - No subsidy: **\$1,372**⁴⁰
 - Maximum copayment with subsidy: **\$556**⁴¹
 - Potential savings: **\$816**
- 501** child care providers accept CCDBG subsidies⁴²
- Child care workers' median wage: **\$17.48 per hour** (**\$36,360 per year**)⁴³

States must establish child care licensing requirements, including staff-to-child ratios, to ensure children are cared for in safe, quality environments. Different rules may apply depending on the setting (e.g., center- or home-based), and some providers may be exempt from licensing requirements (e.g., faith-based programs).

The state has set the following ratios for licensed center-based care:⁴⁴

INFANT	1:4 for 6 weeks to 12 months
TODDLER	1:5 for 13-24 months 1:6 for 25-35 months
PRESCHOOL	1:8 for 36-47 months 1:12 for 48-59 months

EARLY HEAD START/HEAD START

Early Head Start and Head Start provide high-quality early learning and comprehensive services – including health, nutrition, and family support – at no cost to eligible families. Programs are federally funded and locally administered.⁴⁵ Children are eligible based on family income, if they receive TANF, SNAP, or SSI benefits, or if they are in foster care or experiencing homelessness. Head Start programs must reserve at least 10% of enrollment slots for children with disabilities.

- Income eligibility: at or below the federal poverty level (**\$27,320** for a family of 3)⁴⁶
- In New Hampshire: **5 Head Start grants** fund **33 program sites**, serving **1,228 children**.^{47, 48, 49}
- New Hampshire does not serve any children in Migrant and Seasonal Head Start or American Indian and Alaska Native (AIAN) Head Start.⁵⁰

PDG B-5

To date, New Hampshire has been awarded **\$34.6 million** in funds through Preschool Development Grant Birth through Five (PDG B-5).⁵¹

PDG B-5 is a competitive federal grant program designed to improve states' early childhood systems. New Hampshire's PDG B-5 accomplishments include:⁵²

- Expanding the Early Childhood Tuition Assistance Program, which helps early educators to access college courses and earn credentials or degrees to improve their skills.
- Developing two early childhood data dashboards to inform improvements in services for children and families.

CDCTC

In 2022, **27,380** New Hampshire families claimed the CDCTC.⁵³

The CDCTC directly helps working parents offset the cost of child care. In 2025, the CDCTC was permanently updated for the first time since 2001. Many filers could see their credit increase by as much as \$450 (for one child) or \$900 (for two or more children) in tax year 2026.⁵⁴
