FIRST FIVE YEARS FUND

2026 STATE FACT SHEET

Child Care & Early Learning in **Ohio**

In Ohio, federal and state early learning opportunities serve more than **128,296** children,[1] or **16%** of children ages 5 and under.[2]

High-quality child care and early learning programs support children's healthy development while giving parents peace of mind as they work or attend school.

While several federally funded programs help working families access quality child care, limited funding leaves many eligible children unserved. These challenges not only affect families but also employers and the broader economy. Each year, child care shortages across the country impose significant economic costs on families, businesses, and state tax revenues.

Ohio's early learning landscape operates through a mixed-delivery system of diverse programs, each with distinct eligibility requirements, funding structures, and service delivery models designed to maximize parental choice.

(PRESCHOOL SPECIAL EDUCATION)
23,628 CHILDREN SERVED[23]

MATERNAL, INFANT, & EARLY CHILDHOOD HOME VISITING (MIECHV)
2,273 CHILDREN SERVED[24]

CHILD & DEPENDENT CARE TAX CREDIT (CDCTC)
146,650 FAMILIES RECEIVED[25]

OHIO

FUNDING SNAPSHOT

This section reflects the most recent funding data available, including federal funding, federally required state matching funds, and state Pre-K spending. It does not capture the full range of state investments in early learning and care.

STATE INVESTMENT

$120.6M	State-Funded Pre-K[26]
$42.1M	CCDBG State Match[27]
$4.4M	PDG B-5 State Match[28]

FEDERAL INVESTMENT

$427.4M	CCDBG and Mandatory Funds[29]
$308.6M	Head Start Preschool[30] (includes AIAN when applicable)
$120.7M	Early Head Start[31] (includes AIAN when applicable)
$14.8M	PDG B-5[32]
$12.3M	MIECHV[33]
$17.5M	IDEA Part C[34]
$13.8M	IDEA Part B, Sec. 619[35]
$232.1M	TANF Early Care and Education[36]
$0	TANF Transferred to CCDBG[37]

CCDBG

CCDBG allows states to provide child care assistance to low-income working families with children under age 13, helping parents access child care in a setting of their choice.

- Income eligibility: **43% of state median income** (**$36,048 per year** for a family of 3)[38,39]
- Monthly cost of center-based infant care
  - No subsidy: **$1,161**[40]
  - Maximum copayment with subsidy: **$60**[41]
  - Potential savings: **$1,101**
- **5,234** child care providers accept CCDBG subsidies[42]
- Child care workers' median wage: **$15.35 per hour** (**$31,930 per year**)[43]

States must establish child care licensing requirements, including staff-to-child ratios, to ensure children are cared for in safe, quality environments. Different rules may apply depending on the setting (e.g., center- or home-based), and some providers may be exempt from licensing requirements (e.g., faith-based programs).

The state has set the following ratios for licensed center-based care:[44]

INFANT	1:5 for birth-12 months 1:6 for 12-18 months
TODDLER	1:7 for 18 months - 2.5 years 1:8 for 2.5-3 years
PRESCHOOL	1:12 for age 3 1:14 for ages 4-5

EARLY HEAD START/HEAD START

Early Head Start and Head Start provide high-quality early learning and comprehensive services – including health, nutrition, and family support – at no cost to eligible families. Programs are federally funded and locally administered.[45] Children are eligible based on family income, if they receive TANF, SNAP, or SSI benefits, or if they are in foster care or experiencing homelessness. Head Start programs must reserve at least 10% of enrollment slots for children with disabilities.

- Income eligibility: at or below the federal poverty level (**$27,320** for a family of 3)[46]
- In Ohio: **62 Head Start grants** fund **584 program sites**, serving **32,923 children**.[47, 48, 49]
- This includes **228 children** through Migrant and Seasonal Head Start.[50]

PDG B-5

To date, Ohio has been awarded **$73.2 million** in funds through Preschool Development Grant Birth through Five (PDG B-5).[51]

PDG B-5 is a competitive federal grant program designed to improve states' early childhood systems. Ohio's PDG B-5 accomplishments include:[52]

- Creating the Ohio Professional Registry, which promotes individual professional growth and development for early childhood professionals.
- Creating a screening tool to help families determine program eligibility.

CDCTC

In 2022, **146,650** Ohio families claimed the CDCTC.[53]

The CDCTC directly helps working parents offset the cost of child care. In 2025, the CDCTC was permanently updated for the first time since 2001. Many filers could see their credit increase by as much as $450 (for one child) or $900 (for two or more children) in tax year 2026.[54]
